Engine Size	1.5 l
Interior Trim	N/A
Fuel Consumption	N/A

Description

This 2020 Audi A3 TFSI S line is a well-specified hatchback that benefits from being an Audi manufacturer approved vehicle. It is powered by a 1.5 litre petrol engine which meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. As an S line model, it combines the refined engineering expected from the brand with a distinct trim level that enhances the overall presentation of the car. The driving experience is supported by a capable engine that achieves 0 to 62mph in 8.4 seconds, offering a responsive feel on the road. Practicality is a key strength of this model, as it provides a large boot space that is well suited for daily errands or longer trips. Comfort and visibility are prioritised through the inclusion of dual zone electronic climate control, which allows for personalised temperature settings, and LED headlights paired with LED rear lights featuring dynamic rear indicators. These features collectively offer a blend of performance, utility, and modern lighting technology that distinguishes this vehicle within its class.
