Description

This 2022 Audi A1 TFSI S line offers the peace of mind that comes with having had only one owner from new and being an Audi manufacturer approved vehicle. This compact hatchback is powered by a 1.0 litre petrol engine that meets Euro 6 emission standards, making it a modern choice for city driving and longer journeys alike. Inside the cabin, the S line trim provides a refined environment, and the inclusion of a Bluetooth interface ensures you can stay connected while on the move. The driving experience is balanced and responsive, with the vehicle capable of accelerating from 0 to 62mph in 10.5 seconds. Beyond its performance, the design prioritises practicality, featuring a large boot space that is particularly impressive for a car of this size. This combination of efficient engine performance and clever interior packaging makes it a versatile option for those who need a reliable daily driver without compromising on space or comfort.
